**QUESTION:** Now that I've changed to Internet Explorer 7, I find that I really miss the MenuBar (File, Edit, etc.) in Internet Explorer 6. Is there a way to restore it.

**ANSWER:** Yes, and the procedure is simple.

1. Access the drop-down menu (Figure 1):

- 1 RIGHT-click on any existing ToolBar.
- 2 Click on "MenuBar".

Figure 1

The MenuBar appears (Figure 2).
