

WINDOWS
VISTA

**FLIP
3-D**

Darryl D.
<http://DarrylD.com>

Right-arrow key to advance;
Left-arrow key to retreat.

Figure 1

One of the coolest things in Vista is the ability to see thumbnails of all open windows at one time.

Figure 2

This is my Desktop without Flip 3-D.

Note that I have 3 windows open, but minimized.

Figure 3

Flip 3-D

Hold the **Windows** key, touch **Tab** key. *Tap Tab* key.

Figure 4

Hold **Windows** key & tap **Tab** again to see next open window.

Figure 5

Windows Key+Tab:
Keep your finger on the Windows key and repeatedly hit tab to "flip" through the windows. You can also use the arrow keys to move back and forth through the open windows along with the mouse scroll wheel.

Figure 6

If you touch & release the **Windows** key + **Ctrl** + **Tab**, you can *release* both the **Windows** key and the **Ctrl** key and use **Tab** to scroll through the open windows.

Figure 7

Release the **Flag** key and the first displayed window opens.
