Click on the blue, underlined text to go to its linked reference.

This is how to select which programs automatically load when you startup Windows XP, Vista or 7.

With all programs closed, from the desktop, select **1** Start ► **2** Run (Figure 1).

Figure 1

Figure 2

2. Type “MSCONFIG” — without the quotes — and left-click on “OK” button (Figure 2).

3. Left-click on the “Startup” tab (Figure 3).

4. Widen the “Command” column by left-clicking, holding, and dragging the right-side of the column as far to the right as you can go (**Figure 4**).

**Figure 4**

**Figure 5**

5. Select which programs will run when Windows starts (**Figure 5**):

- ❶ A ✓ next to a program means it will run. If there is a check and you don't want it, left-click on the ✓ to remove it.
- ❷ Left-click on “OK” button.
