LOST DESKTOP ICONS RECOVERED

© Darry D Eggleston, 813.677.2871, DarryD@darryd.com

I have lost the icons on the Desktop and the startup button. I can get to mail and Internet by doing Alt+Ctrl+Delete and using the Windows task manager. How do I get the icons back on the Desktop?

1. RIGHT-click on the Desktop.
A pop-up menu appears (**Figure 1**).
2. Click on "Arrange Icons By."
3. Click on "Show Desktop Icons."

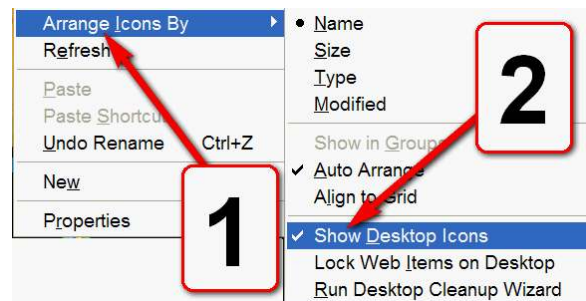

Figure 1

Problem solved, the icons reappear.
